

## Item 17. Quote for re-marking the Stopples Lane – Everton Road Cycleway

### Current Situation:

Sections of the markings along the cycleway are worn and missing. Additional signage for the cyclepath would be useful and has been requested by residents on the bend before the bridge by Woodlands.

The amenities contingency budget can be used for this purpose, along with a proportion from the Lengthsman's scheme on the HCC end of the cycleway (approx. 2 cycling symbols are required on this stretch).

A local company recommended by NFDC has offered the following quote to undertake the work:

<u>Description</u>	<u>Qty</u>	<u>Unit Cost</u>	<u>Total</u>
<b><u>Thermoplastic Lining Works-</u></b>
